- Web Development
  - HTML, CSS,  
JavaScript
- Problem Solving
- Time Management
- Attention to Detail

## SUMMARY

As a first-year Information Technology student, I am deeply enthusiastic about learning the fundamentals of systems, networking, and technical support. While I may be new to the field, I am exceptionally eager to learn, highly receptive to mentorship, and committed to applying my coursework to real-world IT environments. I am ready to absorb new skills quickly and contribute effectively to any technical team.
